DETAILED ACTION

1. Applicant's election of Group I, claims 1-18 in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Non-elected claims 19-27 have been withdrawn from examination.

Claim Rejections - 35 USC § 112

2. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "associated" in line 7. It is not clear how the metallization layer is associated with the bonding pads. Claim 2 recites "depending" in line 3, it is not clear what kind of relationship the claim refer to. It appears that "depending from" should be substituted with -- bonded to--. Claim 7 recites five depositing steps, it is not clear where each layer of the five depositing steps is deposited to.

Claims 2-18 variously depend from claim 1, they are rejected for the same reason.

Allowable Subject Matter

3. Claims 1-18 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 112, second paragraph.

Claim 1 recites "diffusing Cr from said lines... to prevent solder wetting down lines".

This feature in combination with the other elements of the claims is neither disclosed nor suggested by the prior art of record.

Claims 2-18 variously depend from claim 1, they are allowed for the same reason.

Conclusion

4. The prior art relevant to the disclosure of this application and not being used in the rejections.
